Career Objective

Frontend developer with **1.6** years of experience utilizing Vue.js and React.js to create user-friendly, responsive online applications. With experience in providing high-performance, device-optimized solutions, I am prepared to start right away.

Professional Experience

Frontend Developer - gofloww [🔗](#)

Feb 2024 – Nov 2024
pune, India

- For the accounting, mail, and human resources modules, I developed and maintained a console website that greatly increased productivity by 75% and decreased errors. Four key elements were introduced and arranged, which helped to boost revenue by 80% in just three months.
- Using Vue.js, responsive user interfaces were created, converting Figma designs into slick, fast web apps that work well on desktop and mobile devices.
- enhanced operational efficiency and user engagement by implementing real-time analytics for task assignment and attendance monitoring services.
- contributed to other projects by converting Figma designs into useful and responsive online solutions, such as creating the Raru Group website.
- Developed user-centric web applications in a dynamic setting while working with cross-functional teams to guarantee timely and high-quality delivery.

MERN Stack Developer - Skillhub IT Solutions

Feb 2023 – Oct 2023
ch. sambhajinagar, India

- Implemented the use of sophisticated analytics tools to track user behavior on the e-commerce platform; the data's insights resulted in targeted feature improvements that increased conversion rates by 30%.
- To support an e-commerce site, I designed reliable database solutions using Node.js and MongoDB. I also created structured querying procedures that reduced response times by 30% during periods of high traffic.

Technical Skills

Frontend: HTML, CSS, Sass, JavaScript, Vue.js, React, Angular, Next.js, jQuery, Redux, JSON, Rest-api, CSS Frameworks (MUI, Bootstrap & Tailwind css) | **Backend:** Node.js, Express.js | **Database:** MongoDB, Firebase | **Tools:** GitHub, VS Code

Projects

Console, HRMS, Accounting, and Email Management System [🔗](#)

- created extensive features for personnel administration, such as geo-tagged attendance, leave monitoring, and profile building.
- Integrated leave data for current payouts and single-click payroll were implemented for precise and prompt salary processing.
- Improved user experience for smooth data handling and employee activity tracking.

E-commerce, MERN E-commerce Platform [🔗](#)

- Developed an e-commerce platform with Razorpay for safe transactions, admin dashboards, Gmail connection, and user verification. The platform was created from scratch in 78% of cases, guaranteeing a flawless user experience and functioning.

YouTube Clone, Modern UI with React.js & Real-time Data Integration [🔗](#)

- Using React.js, Tailwind CSS, and Rapid API, a completely functional and responsive YouTube clone was designed and constructed. created a smooth and simple user experience by utilizing React ideas like JSX, components, state, and Context API. GitHub repository [🔗](#)

Education

Deogiri Institute of Technology & Management Studies, Ch. Sambhajinagar,
B.Sc.(Computer Science) [🔗](#)

Jun 2019 – Jun 2022
77%

AVS Junior college, Higher Secondary Certificate (H.S.C)

Mar 2018 – Mar 2019
70%

Certificates

- ISRO: Overview of Geoprocessing using Python [🔗](#)
- TCS iON: Young Professional Course
